Recycling Oil Filters, Absorbents & Antifreeze: A state mandated ban prohibits all landfilling of used engine oil filters and all oil absorbent materials, except absorbent materials with no free flowing oils or hazardous materials within can be landfilled. All types of materials used to absorb or contain waste oil are subject to the ban, including granular kitty-litter type absorbents, oil-dry cloth, rags, wipes, paper toweling and absorbent pillows, pads, socks, etc. **Antifreeze or Ethylene Glycol** is a poisonous substance that can be harmful to humans, animals and the environment.
